COMACT™

EVERBLUE™ PROGRAM

OEM preventive maintenance and lifecycle support

Our EverBlue™ program, part of our Aftermarket portfolio, delivers structured OEM preventive maintenance and long-term equipment care. With scheduled visits, predefined service packages, software updates, and remote support, EverBlue™ provides predictable costs, sustained uptime, and long-term value for your installed Comact equipment.

Comprehensive on-site services

- Mechanical, optimization, and controls preventative maintenance
- Wood processing service for optimization and grading
- Saw filing and operational audits
- Technical and on-the-job training for key personnel

Remote and software support

- 24/7 remote phone support
- Annual updates to the latest proven software releases and AI model updates
- Optional hardware included as part of an amortized yearly fee

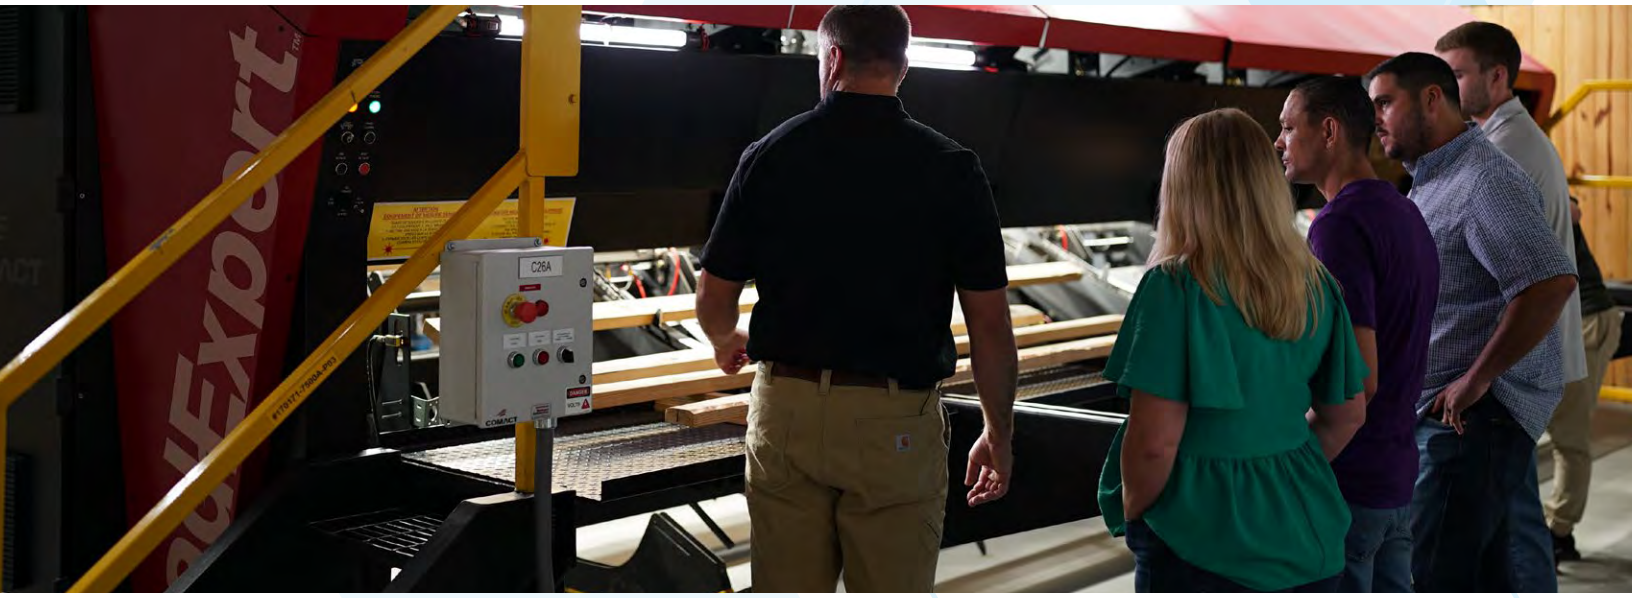

PREDICTABLE, VALUE-DRIVEN BENEFITS

Built to deliver stable, long-term value, EverBlue™ offers:

- Fixed prices for the duration of the agreement
- Discounted labor rates
- Pre-booked site visits for consistent support
- Discounts on Global Learning Center offerings
- Software update discounts on multiple systems

Partner for long-term reliability

EverBlue™ works alongside your team to strengthen your operational strategy, maintain consistent uptime, and extend the life of your equipment, ensuring your mill achieves peak performance today and remains reliable for years to come.

Contact us today to learn how EverBlue™ can strengthen your mill's reliability strategy.
